Legal Professionals, Incorporated
Presents

TAR 1.0 vs. 2.0
And Other AI Uses in Litigation

Santa Clara County Legal Professionals Association
June 2024 Membership Meeting

Guest Speaker:

Justin Corso, First Legal

Speaker provided by Santa Clara County LPA

Technology Assisted Review (TAR) is a document review method which deploys machine learning algorithms to classify documents based on input from reviewers. There are multiple systems or approaches to using technology to perform document reviews. Generally, TAR is faster and accurate, if not more, and more cost-effective than human-only review. Our speaker will help you understand the basics and evolution of technology-assisted review, cover statistics highlighting its effectiveness, and explore AI's wider role in litigation beyond TAR.

This activity is approved for MCLE and CCLS credit in the amount of 1.0 credit hour.

Wednesday, June 12, 2024

Hybrid meeting: in-person and virtual via MS Teams (viewing only)
